

Diospyros sp. Bamaga

Small understorey tree occurring from Cooktown north.

Pseudoweinmannia lachnocarpa

Small, hardy tree found in both the wet tropics and in south east Queensland. Flowering for the first time.

Syzygium cormiflorum

This form is from near Hopevale and does not produce bumps. It also flowers from all branches right down to tiny twigs.

Dinosperma stipitatum

Previously Melicope. Shrub from high rainfall rainforest. Flowered for the first time. Planted in 1991.

Xanthostemon arenarius

From the sand dunes near Hopevale. Flowering for the first time.

Neostrearia fleckeri

Unusual tree from Mt Lewis. Spectacular mass of flowers at the moment.
